PREFACE.

THIS catalogue includes all publications received in the library attached to the Central Office of the Department of Industries up to 1st January 1934. The library contains a number of books on subjects relating to commerce, technology and manufacture, besides a considerable number of monographs, bulletins, transactions of societies and miscellaneous scientific and technical publications, directories, trade and market reports, catalogues, statistical publications, Patent Office publications and the publications of the Forest, Agricultural and Geological Departments, etc. The Library, although primarily intended as a reference library for the use of departmental officers, is open during office hours, i.e., from 11 a.m. to 5 p.m., to the public and is being increasingly resorted to. About 40 journals and periodicals on scientific, technical and commercial subjects are also received in the Department of Industries, the more important of which are placed on the table in the Library for consultation and reference by the general public. The Library, as at present organized, does not function as a lending library, but the Director of Industries will be prepared to consider applications for the loan of books and other publications for reference or study by any persons engaged in trade or industry on terms which may be ascertained on application.

A suggestion book is kept in the Library and recommendations for an extension of its scope and usefulness and for the purchase of new books are invited from the public.

MADRAS,
Dated 1st January 1934.

RULES FOR THE ISSUE OF BOOKS FROM THE LIBRARY OF THE DEPARTMENT OF INDUSTRIES, MADRAS.

---

1. All books in the Library are available for issue on loan to the officers and staff of the headquarters office of the Department of Industries as well as to those of subordinate offices.

2. Reference books, such as, Encyclopædias, Directories, etc., should not ordinarily be taken away from office or put up in files. They should, as far as possible, be returned on the day on which they are taken out.

3. Any officer requiring a book from the Library should send a requisition in the prescribed form to the Librarian or, in special cases, should grant a receipt for the book required by him. An officer receiving a book by post should acknowledge its receipt by return of post.

4. The responsibility for books borrowed will rest with the borrower till he receives his receipt back or a written acknowledgment from the Librarian.

5. An officer may retain a book for 15 days initially (exclusive of the time occupied in transmission by post) and, if necessary, may renew the loan for a further period of 15 days, provided the book is not required by any other officer.

6. The borrower will ordinarily be required to pay the full price of any book lost or damaged by him.
